As experienced Entrepreneurs we know that sometimes the hardest part of setting up a new business is making that first step. We have used our years of experience to put together this great package that will give your new business the competitive advantage that your hard work deserves.

At the center of the Entrepreneur Kit is Biz Guru's Standard Business Plan. Each plan is totally unique to your business. During our Telephone Consultancy one of our experienced consultants will discuss your business aims and aspirations and how you can meet these. Company Incorporation can appear daunting, but we will undertake this for you, advising on your business name if required.

To bring your business to life you will need support. Our two months of Email Support and book "*The Entrepreneur Apprentice - Find Your Hidden Biz Guru!*" will provide you with support and ideas.

After your business is set up you need to find your customers and get your company well known. We will provide two Months of Internet marketing, where we will introduce your company to potential customers. Truly, everything to get your business established and known by your potential customers.

Standard Business Plan

We will furnish you a standard business plan that outlines your industry, competitors, product need, business model, marketing opportunities, and financial forecasts. A great deal of research goes into making the case for your business' success. The quality and persuasive factor of your plan will aid you in raising capital and setting clear immediate and long term goals.

Telephone Consultation

To provide support, ideas and input to your business plan, we spend about an hour on the telephone with you. During this consultation we will discuss your business, business model and the market need for your product or services. The consultation is two way and we encourage you to discuss business matters that concern you and ask questions of things that you do not know. Our experienced business consultants will seek to provide answers or suggest where you can find the answers. Through our Circle of Success we have contacts with experts on all kinds of subjects.

At the end of the consultancy, you will have a clearer idea of your business strategy and what you wish to sell and to whom. We will have the information needed to produce your business plan. We will clarify matters via email during the process and of course, you have 3 months of email support to ask us further questions. We are not lawyers so are unable to provide legal advice unfortunately. We are proud of our experience and are happy to share with you decades of practical experience.

3 Months of Email Support

You may email your business questions to us during the 3 month email consultancy period. If we do not know the answer, we will point you to where you can find the answers. We cannot provide legal, tax or accounting information as we are not lawyers or accountants – but excellent business consultants. We will also keep in touch throughout the marketing process via email.
